Personal Code of Conduct

My Personal Code of Conduct serves to illustrate the values that drive my values and reasons for living. My goal in this life is to be effective at positively influencing and empowering my community and make a better world for children. I chose the acronym MAUNA, because it is the name of the company that I have built with faith and with the desire to use the fruits of my labor to give back to my community and those who can't help themselves.

The word Mauna in Hindi means silent, in Arabic it means to help those who can't help themselves, and in it is the name of a volcano in Hawaii. I define my daily living as a volcano of emotions. As we grow with adversity, we must take every moment as an opportunity for learning. We must remember that success does not come with comfort. Unifying the world around us is one of the most important pillars of my personal code of conduct. Lastly, entitlement is a disease that I pray never to become infected with. I pray to lead with grace and love.
